

Chien Phan

Portfolio: chienp054.github.io | chienp054@gmail.com | 714-909-9660 | Stanton, CA

Summary: Analytical & detail-oriented Business Analytics graduate with hands-on experience in data analysis, visualization, and process improvement. Proficient in Python, R, SQL, Excel, and Tableau, with a strong foundation in translating data into actionable insights to support business decisions across dynamic environments.

EDUCATION

University of California, Riverside | *Riverside, CA*

September 2024-July 2025

Master of Science, Business Analytics - GPA: 3.94.

University of California, Berkeley | *Berkeley, CA*

January 2016 -December 2021

Bachelors of Science— Molecular Cellular Biology

PROFESSIONAL EXPERIENCE

Business Analyst at *Beauty Salons*

October 2023 - Sept 2024 | Los Angeles, CA

- Researched and implemented an advanced inventory tracking system, decreasing waste by 50% and improving resource allocation through data-driven insights and optimized procurement strategies.
- Streamlined procurement procedures, which led to cost savings and better supplier relationships through strategic analysis of vendor performance and negotiation tactics.
- Developed and managed staff schedules, enhancing employee satisfaction and customer service ratings by 30% through effective resource allocation and performance evaluation.

Sales Manager at *Sunbit*

August 2022 - October 2023 | Los Angeles, CA

Led sales operations and analytics initiatives to improve team performance and reporting

- Managed a sales team of 8 representatives, driving a 15% increase in qualified leads and consistently exceeding quarterly sales targets.
- Built custom Salesforce dashboards to track activities and KPIs, increasing sales visibility and improving team productivity by 20% through data-driven coaching.
- Designed Tableau dashboards for team meetings and executive presentations, reducing reporting preparation time by 30% and enabling faster, insight-driven decision-making at the leadership level.

Emergency Medical Transporter at *Royal Ambulance*

December 2018 - December 2019 | San Leandro, CA

- Maintained accurate and compliant patient transport records, ensuring data integrity across all reports.
- Coordinated with dispatch and medical teams to streamline workflow efficiency and resource utilization.
- Communicated critical information under pressure, supporting real-time decision-making in fast-paced environments.

TECHNICAL PROJECTS

Capstone: Data Analytics for EV Adoption Trends Using R, Python, SQL, and Tableau

- Analyzed 1,500+ CA ZIP codes with public datasets to study EV charger access and adoption.
- Cleaned/joined data in **SQL** and **Excel**; engineered features like charger density and income quartiles.
- Built **predictive models in Python**; neural networks achieved top accuracy for EV adoption.
- Visualized charger gaps and demand patterns in **Tableau** and shared via **GitHub Pages**.
- Applied K-means clustering to segment regions and developed a scoring model to prioritize ZIPs for investment.

TECHNICAL SKILLS

Tools & Technologies: SQL, Python, R, Excel (Pivot Tables, Power Query, VLOOKUP, SUMIF), Tableau, Salesforce, PowerPoint, MySQL, Microsoft Office Suite, VBA

Data Analytics: Data Visualization, Data Science, Data Analysis, Data Analytics Data Modeling, Data Wrangling, Data Manipulation Statistical Analysis, Forecasting, Predictive Modeling, Machine Learning, Relational Databases

Business & Process: Business Operations, Process Improvement, KPI Development, Agile Methodologies, Cross-functional Collaboration, Financial Accounting, Reporting & Analytics, ETL Process
